

Stratford Board of Education

Discipline Policy / Expulsion

Any high school senior who is expelled by the Stratford Board of Education at any point during his/her senior year will be prohibited from participating in the formal commencement exercises. Seniors with this status may receive their diplomas at their respective high schools the day following graduation.

The Board authorizes the Superintendent of Schools in implementing and administering this policy, to make such exceptions which in his/her discretion are warranted. Such exceptions shall be reported to the Board of Education at its next Personnel Committee meeting in Executive Session. Such exceptions should in no way be used to subvert the original intent of the policy which is to deter student conduct which would result in expulsion during the senior year.
