

STRATFORD BOARD OF EDUCATION

EQUITY AND DIVERSITY (NEW)

POLICY 0523(A)

The **Stratford Board of Education** (Board) is committed to the success of every student in each of our schools and to achieving the mission of ensuring that all students graduate ready for college, career and life. The Board believes that the responsibility for student success is broadly shared by District Staff, administrators, teachers, community and families. The Board is focused on closing the opportunity gap and creating learning communities that provide support and academic enrichment programs for all students.

The concept of educational equity extends beyond formal equity, where all students are treated the same, to fostering a barrier-free environment where all students, regardless of their race, class, or other personal characteristics such as creed, color, religion, ancestry, national origin, age, economic status, gender, sexual orientation including gender expression or identity, pregnancy status, marital status, physical appearance, or the presence of any sensory, mental or physical disability, have the opportunity to benefit equally.

The responsibility for the disparities among our youth rests with adults, not the children. The Board is aware that student achievement data from across the country reveal similar patterns and those complex societal and historical factors contribute to the inequities faced by students. Rather than perpetuating such disparities, the Board believes the District must address and overcome this inequity and institutional racism, providing all students with the support and opportunity to succeed. This means differentiating resource allocation, within budgetary limitations, to meet the needs of students who need more supports and opportunities to succeed academically. The district will provide additional and differentiated resources to support the success of all students, including students of color.

District schools will significantly change/improve its practices in order to achieve and maintain racial equity in education. Educational equity means raising the achievement of all students while (1) narrowing the gaps between the lowest and highest performing students and (2) eliminating the racial predictability and disproportionality of which student groups occupy the highest and lowest achievement categories.

With these commitments in mind, the Stratford Public Schools shall:

- Provide every student with equitable access to high quality and culturally relevant instruction, curriculum, support, facilities and other educational resources, even when this means differentiating resources to accomplish this goal.
- Create multiple pathways to success in order to meet the needs of its diverse students, and shall

actively encourage, support and expect high academic achievement from all racial groups.

- Recruit, employ, support and retain a teacher, administrator, instructional and support workforce that is balanced and reflects the diversity of the student body.
- Provide professional development to strengthen employees' knowledge and skills for eliminating cultural, racial and ethnic disparities in achievement.
- Ensure that each school creates a welcoming culture and inclusive environment that reflects and supports the diversity of the District's student population, their families and communities.
- Remedy the practices, including assessment, that lead to the over-representation of students of color in areas such as special education and discipline, and the under representation in programs such as talented and gifted and Advanced Placement.
- Review existing policies, programs, professional development and procedures to ensure the promotion of racial equity, and all applicable new policies, programs, and procedures will be developed with a racial equity approach.
- Include other partners who have demonstrated culturally specific expertise, including families, government agencies, institutions of higher learning, early childhood education organizations, community-based organizations, businesses, and the community in general, in meeting the District's high goals for educational outcomes.
- Provide, consistent with state regulations and District policy and within budgetary considerations, materials and assessments that reflect the diversity of students and staff, and which are geared towards the understanding and appreciation of culture, class, language, ethnicity and other differences that contribute to the uniqueness of each student and staff member.

The Board recognizes that these are long-term goals that require significant work and resources to implement in all schools. All District employees are responsible for the success and achievement of all students. The Superintendent is authorized to develop procedures to implement this policy, including an action plan with clear responsibility. Annually, the Superintendent shall report to the Board on the progress towards achieving the goals outlined in this policy.
