Street Directory

Stratford Board of Education Street Directory

This directory reflects the residence attendance areas and pathways established by the Stratford Board of Education. Guiding factors for the overall plan included (1) the special educational needs of students, (2) the proximity of students to school buildings, (3) the safety of students, (4) the ages of students served, (5) the specific nature of the educational program offered at the school and (6) enrollment balance.

Generally, students living in a given elementary school attendance area have first choice for school membership in that area. The Board of Education reserves the right to override the specified residence attendance areas and pathways if it is in its best interest to do so in order to meet essential, district-wide objectives.
