October 12, 2020

Dear Eli Whitney Families,

In an effort to better support our students and teachers, the district has decided to adjust the format of our Wednesday schedule. While all students are home on Wednesdays, they can expect to be engaged with learning activities with their teachers for the first half of the day, including live sessions with their class. During the afternoons, staff will be engaging in planning and collaboration activities so that they can better address the needs of our students as they balance a combination of remote and in person learners. Students will be expected to continue working on the independent academic tasks that the teachers have assigned to them and should be available for any live sessions the classroom teachers or support staff members schedule in the afternoons.

Sincerely,

Victoria K. Florek
Principal

Robert Veteri
Assistant Principal
